

## Hermetic Fuel Tank Connector with Removeable Contacts

Removeable crimp contacts associated with hermetic design and materials suitable for continuous fuel immersion makes the connector ideal for tank wall applications.

**High hermeticity performance**

Glass to metal sealing:  
• leakage of less than 10<sup>-9</sup> atm.cm<sup>3</sup>/s

**Removeable crimp contacts**

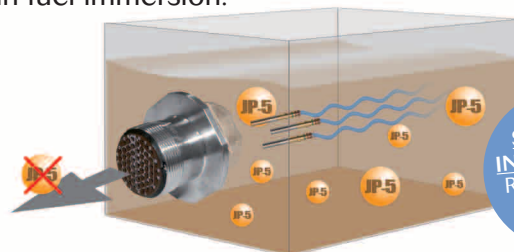

A unique technology combining crimp contacts with glass sealing:  
• RoHS: no lead used  
• Long lifetime: superior to solder cup contacts especially in kerosene immersion  
• Easy MRO: easy contact replacement.

**Long term immersion materials**

Performance warranted for minimum 90,000 hours in fuel immersion.
